O'Malley, Francisco Alarcon**

Our Mission Statement

Our Lady of Mercy Catholic Academy is committed to **Academic Excellence** that is rooted in the **Catholic Faith**, affirmed by the **Teachings of Jesus Christ**, and centered on **our service to God, family, and community.**

What Our Mission Statement Means To Us.

Our mission statement means to us a saying we use to identify what sets our school apart. This shows what we do and what we are committed to. At Our Lady of Mercy Catholic Academy we learn the roots of our catholic faith and what it means to be a good Catholic and Neighbor to everyone.

Our service to family

Our service to family means that we will always respect our family. We thank them for all that they do for us in allowing us to go to this amazing school. We are very thankful for our family.

Our Service to God

In this wonderful school, we put God first and foremost. We really Put all of our faith in God. We learn the roots of our Catholic faith in our in depth religion classes. We go to church as a school and are all in touch with our faith. This really shapes our future and our Catholic identity.

Our service to Community

We respect all of our neighbors. We do community service projects, and are always up for helping someone who needs it.

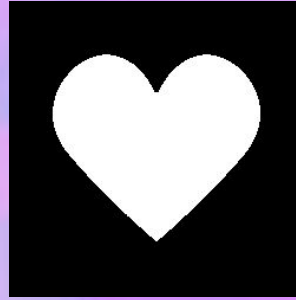

Something that we do to help people in need is the Thanksgiving food drive.

We've also sang at a Senior center, and so much more

Why we should follow the Mission Statement

The mission statement is extremely important to listen to. It demonstrates what good and responsible Catholic students we are here at Our Lady Of Mercy Catholic Academy. We all try to be model students and always respect each other. We are great Catholics and citizens for not only our school, but for our community.

The End
