Our Mission Statement

Our Lady of Mercy Catholic Academy is committed to academic excellence that is rooted in the Catholic Faith, affirmed by the teachings of Jesus Christ, and centered on our **service to God, family and community.**

By: Jordan Kenna

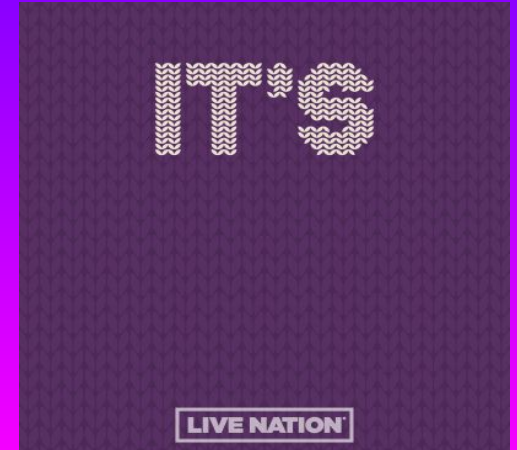

Service to God

Service to God is just service to others but, with a greater meaning. We serve God everyday and don't know it.

Service to family

The love of family is life's
greatest blessings.

We are not just a school or a community, but a family.
We all have a bond like no other. Everyday I come into
school and immediately feel at home and know that I
am meant to be here. I always feel respected and loved,
and that will never change.

This school is our second home and the people in it are our second family. I will always feel like this is my second family. It makes my day so much better knowing that I have a family here. The friendships and bonds that we made will last a lifetime.

Service To The Community

Service to the community is us giving back to all the elderly people that go to our church.

Continuation..

BY: ANNIS HOXHAJ

For our community
we give back to
them for coming
to church and
praying to God
even though the
worst of their
times.

Timothy Cheung

What does this all mean for our Catholic religion?

The statement, “service to God, family, and community” means that we should do good things as Catholics. This will make God and our family love us even more, and we will come together as a community.
